

# SISTEM DE OSMOZA INVERSA CU REMINERALIZARE—APA PLATA

## MODEL PROTEAS AQRO6PM

**799 RON Tva inclus**

### DESCRIPTION

Reverse osmosis 5 stages without pump, with pressure tank 11L and faucet. It has three pre-filters (polypropylene 10" – 1µm, granulated activated carbon 10", activated carbon block 10" – 5µm), reverse osmosis membrane 75GPD and in line granulated activated carbon for improving taste and odor of the water.

- Removes sediments and solid particles (rust, sand, dirt, mud)
- Removes 99% chlorine, organic compounds and pesticides
- It has three pre-filters for better membrane's protection and prolong it's duration life
- Reverse osmosis membrane removes contaminants that may be present in the water, such as lead, barium, chromium, copper, sodium, cadmium, fluoride, nitrite, nitrate and selenium
- In the package are included: one set of filters, design faucet, pressure tank, wrench and all the necessary accessories for th installation

**OPERATING PRESSURE IN**      *0.5 - 2 bar*

**OPERATING PRESSURE OUT**    *3,5 bar*

*Dimensions R.O. (HxWxL): 45.00 x 15.00 x 45.00 (cm)*

*Dimensions of expansions vessel (HxD): 29.50 x 22.00 (cm)*

**OPERATING TEMPERATURE**

*2 °C – 35 °C*
